

# CF & CFI FLUTED INSULATED METAL WALL PANEL

METL-SPAN INSULATED METAL PANELS

The ribbed profile of the Metl-Span CF & CFI Fluted insulated metal wall panel provides bold vertical lines complementary to almost any commercial or industrial building. The CF & CFI Fluted wall panels are the recommended profile for the exterior of cold storage buildings.

## CF & CFI FLUTED INSULATED METAL WALL PANEL FEATURES

**Exterior Profile:** Flutes 1" wide and nominal  $\frac{3}{8}$ " deep

**Interior Profile:** Mesa nominal  $\frac{1}{8}$ " deep;  
Light Mesa nominal  $\frac{1}{16}$ " deep, *Light Mesa not available for 5- or 6-inch thick panels*

**Panel Core:** For the CF Panel: Foamed-in-place, zero ozone depleting (zero ODP) polyurethane, Factory Mutual Class I approval. For the CFI Panel: Foamed-in-place, zero ozone depleting (zero ODP) polyisocyanurate, Factory Mutual Class I approval.

**Thermal Values:** K-factor, Btu in/ft<sup>2</sup> hr. °F @ 75°F (24°C) mean core temperature = 0.140. K-factor, Btu in/ft<sup>2</sup> hr. °F @ 40°F (4°C) mean core temperature = 0.126.

**Module Width:** 42"

**Panel Thickness:** 2", 2  $\frac{1}{2}$ ", 3", 4", 5", 6"  
(2  $\frac{3}{4}$ " thickness also available from Nevada plant)

**Panel Lengths:** CF Panel: 8'-0" to 53'-0", CFI Panel: 8'-0" to 50'-0"

**Exterior Facings:** Stucco embossed, G-90 galvanized and/or AZ-50 aluminum-zinc coated steel in 26 Ga., 24 Ga., 22 Ga.

**Interior Facings:** Stucco embossed, G-90 and/or AZ-50 aluminum-zinc coated steel in 26 Ga. 24 Ga. and 22 Ga.

**Panel Joint:** Offset double tongue and groove with extended metal shelf for positive face fastening

**Fastening:** Fastener and Clip concealed in the side joint

Factory Mutual Approved Class I with no height restrictions.

## FINISHES & COLORS

A full range of exterior colors & coatings are available for the architectural market. For specific information about our available colors and coatings, visit us online for a comprehensive selection.
