

Wall Section At Window Head

Notes:

- * Designates components provided or available from Metl-Span.
- Reference the governing code for brick anchor spacing.
- Brick anchor screw size (pull-out strength) is determined by negative wind pressure design requirements.
- Reference brick and brick anchor manufacturer's information for specific brick and anchor details.
- Window assembly shown as generic representation only. Actual assembly is as specified by the project designer.
- Metal fire block flashing of panel ends and cavity is shown as required for multi-story compliance.
