

PERFORMANCE REDEFINED

Metl-Span delivers high-quality, durable and energy-efficient solutions designed for unparalleled performance to stand the test of time.

The use of insulated metal panels (IMPs) for wall and roof building materials is on the rise. IMPs are an ideal solution to achieve the performance and durability necessary to compete in today's demanding marketplace and comply with evolving energy codes.

THE ADVANTAGES OF METL-SPAN INCLUDE:

★ PERFORMANCE & DURABILITY

Single source control layer barrier

Metl-Span panels provide an exceptional solution for insulating buildings, also acting as a single water, air, vapor and thermal barrier. Metl-Span offers unparalleled performance in the durability, consistency and excellence of the products we offer.

🍃 ENERGY EFFICIENCY

Insulated metal panels feature unsurpassed thermal efficiency

Each Metl-Span panel contains an advanced urethane core that provides highly efficient insulation to drive down energy usage and building owner costs. This sustainable construction qualifies many builders for credits in the Leadership in Energy and Environmental Design (LEED®) Rating System.

🔧 EASE OF INSTALLATION

Reduced construction time saves you money and effort

Metl-Span provides a single source for the building enclosure, reducing the number of necessary trades. Metl-Span panels are designed for easy and efficient installation in order to reduce unnecessary downtime and keep your project on track.

🏠 DESIGN FLEXIBILITY

We provide a wide range of options for any project

Metl-Span panels are designed for exterior walls, interior walls and roofs. The panels come in a variety of finishes, textures and colors for both vertical and horizontal installation.

FIRST-CLASS CUSTOMER SERVICE

With unmatched industry experience, Metl-Span stands committed to unparalleled performance not only in the products we offer, but also the reliability and responsiveness of the service and design support we provide.
