

36"

EXPOSED FASTENER SINGLE-SKIN METAL PANELS

7.2 PANEL

When the design calls for a commercial or industrial thru-fastener panel, the 7.2 Panel offers both versatility and functionality. The 7.2 Panel is 36" wide with symmetrical 1½" high ribs on 7.2" centers. This rugged panel also offers excellent spanning capability.

PBR PANEL

The PBR Panel is used for a wide variety of architectural, commercial and industrial applications. PBR is a structural panel with exposed fasteners used in wall applications.

PBU PANEL

The PBU Panel is an exposed fastener system that can be used both horizontally and vertically in wall applications. It can be installed directly over purlins or joists and gives designers a contemporary aesthetic for their building project.

PRODUCT SPECIFICATIONS

PROFILE

- **7.2:** Traditional high-rib pattern at 7.2" o.c.
- **PBR:** 1¼" rib height at 12" o.c.
- **PBU:** ¾" rib height at 6" o.c.

WIDTH

- 36"

LENGTH

- 5'-0" to 50'-0"

EXTERIOR FACE

- AZ-50 aluminum-zinc coated steel in 26, 24 and 22 Ga.

STANDARD EXTERIOR

- Full-Strength 70% PVDF Fluoropolymer Coating or Siliconized Polyester Coating

FINISHES & COLORS

- Please see reverse side for all available colors. Please inquire where order minimums apply.

FASTENING

- Exposed fastening system
